

MODERN
INDUSTRIAL

Industrial-look pendants
hung in a crisscross pattern
are lighting eye candy.

The lengthy island
boasts much of this
kitchen's storage space,
leaving the walls clear
and letting the artful
tilework take centre
stage. Plus, the island's
long, sleek countertop
makes it the perfect
place for food prep or
entertaining guests.

Feeling like the heart
of your home is in need
of an update? Great
design ideas abound
in these three fabulous,
functional spaces.

POLISHED MINIMAL

A wall of floor-to-ceiling cabinetry with simple hardware gives this kitchen a streamlined look.

Hardwood flooring warms up this room's cool aesthetic.

The waterfall countertop on this island is ultra-elegant yet still provides an earthy appeal.

Teardrop-style pendant lights draw the eyes up with their glittery presence. The rounded shape lends some softness to the scheme.

The backsplash is adorned with a wave of tiny tiles, adding more visual texture to the room.

COUNTRY CHIC

This kitchen's subway-tile backsplash adds major visual appeal without being overpowering. Open shelving keeps sightlines clear, while lots of light filters in through the windows.

The pair of geometric pendant lights hung over the island fit right in with the plethora of shapes, lines and curves in this room.

Wide-plank barnboard flooring creates a casual, cottagey vibe. The caning of the counter stool seats ties this look together.

A gilded-metal screen is a unique addition to this room's white-on-white aesthetic, providing a bit of old-world charm.

Gorgeous floral-patterned drapery lends this kitchen the pop of colour it needs. Its warm print imbues serious country style.

A door that lifts up and out of the way is a must-have practical option for hard-to-reach corner cabinets.

Tons of cabinetry optimizes the space and makes for a functional, clean-lined look. The chalkboard lit by old-school sconces is great for jotting down notes for the family or creating the weekly grocery list.
