

KICK OFF YOUR SHOES

We all need a relaxing clutter-free space to welcome us home after a long day, so we asked our home & style director, Ann Marie Favot, to tell us what she loves about these inspiring, chic and functional entryways that will greet you (and your guests) with style.

ELEGANT TRADITIONAL

"I love the hits of black and gold in this traditional entryway - so sophisticated! The chest of drawers is great for storage, and the stool is functional yet small enough to be picked up and moved around easily."

MIXED MODERN

"This is the ultimate design for a narrow entryway. The oversized mirror reflects light and the Lucite table gives the illusion of more space. Both items pair perfectly with the bold pattern of the wallpaper and seat upholstery."

COLLECTED COASTAL

"This design really speaks to me. I love the curated feel of this area and the mix of form and function. For example, the storage baskets have lids to conceal everyday items, leaving space on the console to display art and *objets*."

LAYERED ECLECTIC

"If you don't have space to stow your fancy luggage, why not put it on display and use it as extra storage? This space feels perfectly decorated with its mix of shapes and textures. I love the juxtaposition of textures in the mirror, lamps, table and luggage in this chic design."
